Skills

- Python (for data science)
- Machine Learning
- Web Scraping
- Data visualization and cleaning
- C++
- SQL (MySQL and Oracle)
- React with Typescript
- Power BI
- Microsoft Tools (Azure, Excel...)

Language

Spanish	(Native)
English	(Advanced)
German	(Intermediate)

Summary

I am a student in computer science interested in working in data science/engineering. Passionate about the development of AI and Machine Learning. I am currently looking for an intern job as a data engineer.

Education

B.S. in Computer Science and Technology 2023-2027
Instituto Tecnológico y de Estudios Superiores de Monterrey

Experience

Bilingual customer service agent June 2023-August 2023
Teleperformance

A job where I developed strong communicational skills and abilities to work as a customer service agent for internet companies.

NLP (Scholarship) August 2024-November 2024
Instituto Tecnológico y de Estudios Superiores de Monterrey

A scholarship service I participated in during my third semester, where I learned how to do Multilabel Classification predictions with Sickit-learn in Python. The project was about predicting professor evaluations done in ITESM.

Data Entry (Temporary) December 2024-January 2025
Grupo de Asesores Morales

A temporary job where I registered data from surveys done in SADM locations.

Front-end Project January 2025 - February 2025
Vida Plena

A community service during winter where a website prototype was created for the UANL hospital. It was created in React along 9 other computer science students in GitHub.
